MARKET OVERVIEW

The New-Year kicked off with medium to long term Lebanese Government Eurobonds reversing prior month improvements and decreasing by around USD 1.25-1.75. In parallel, Republic of Lebanon CDS for 5 and 10 years increased by more than 30 bps to 460 and 480 (midspread) levels respectively. In the GCC region, 5 year CDS levels showed an average increase of 35 bps; the Gulf governments look set to borrow from the international bond market at a record pace this year as they cover budget deficits which are expected to near USD 140 bln or 11% of GDP.
